Valleygrand Place, near
Jacksonville, Fla.,

Jan. 21, 1881.

Dear Sir,

My big box
plants for Cambridge to day -
It contains 23 of my grasses
No 4 which I trust you will
distribute with as little delay
& expense as possible -

Of Paco. 3 I sent two to Weigel
through you & four through the Smithsonian
as the latter cost me \$1. each I thought
best this time to send 6 for him to you
as also 3 for Keck, which Dr. Keck
says may be sent to the care of Mr.
Weigel, they being friends.

of Lating's "Illustration" of
the "Illustration" about 75% of
the 55 to 60 fascicles, with the
exception of yours & Oliver's,
which contain all, as you
may judge from their size -

As I know nothing of your
methods of shipping to Europe,
you must excuse me if I
ask too much of you - arising
through ignorance -

As it is safer not to prepay
charges, I will trouble you to pay
them & deduct all expenses from
the first remittance you have
to make -

I hope to hear from you
about my S. F. & K. before I
revisit that section -

I suppose the "Royal Palm" is the
Coccothraustes of the W. Indies.

Hoping that everything will
be satisfactory to you I remain

Yours very truly

A. H. Curtis
